

Math Buddies Annual Report 2020-21

Barbara Van Itallie April 21, 2021

We were not able to enter any schools during this last year due to COVID and therefore Math Buddies was not able to run.

The future of this initiative is uncertain at this time. Our partner, Literacy Connections, may not be able to support us in the future due to budget cuts. They were responsible for vetting our volunteers, making connections with the schools and teachers, and providing some supplies. If they are not able to continue, I will need to determine if we can continue on our own. But no determinations can be made until schools reopen for good and volunteers are allowed in the buildings.
