

Math Buddies Annual Report 2021-2022

Barbara Van Itallie May 3, 2022

Math Buddies returned in a very limited way this school year, with only two AAUW Buddies in City of Poughkeepsie Schools. There may be non-AAUW members also serving as Math Buddies.

With Covid and remote schooling over the past two years, many buddies chose not to return or to wait until they can feel fully safe.

As reported last year, Literacy Connections was not able to provide any administration or direction of this project, as they do for Book Buddies. I am the minimal volunteer leader at this moment.

My plan is to attempt to recruit a few more Buddies for the 2022-23 school year, and to contact some of the old Buddies. I still find this activity personally extremely rewarding.
