

## Membership Treasurer Annual report 2021-22

While we definitely felt the effects of the Covid-19 Pandemic in membership retention, I wish to thank all those many members who renewed again although they were frequently unable to partake in all the initiatives and interest groups we normally have. Some have thrived and changed with Zoom as a platform, and some were unable to continue during this past year.

We also brought in 25 new members with the hard work of our Membership VP's Mary Scalise-Annis and Bonnie Auchincloss. Our total membership for 2021-22 is 277, allowing us to continue as one of the largest branches in the Nation. Well done, all!

As of this writing, we are well into the renewals for 2022-23 and again our members have shown great support for our branch, with 70 members including 2 new members already on the books!

Sue Doyle, Membership Treasurer
