

POUGHKEEPSIE AAUW INVITES YOU TO HEAR:

ARTIFICIAL INTELLIGENCE (AI)

PRESENTATION AND DISCUSSION

DECEMBER 12, 2024

7:00 PM

THE FREEDOM PLAINS UNITED PRESBYTERIAN CHURCH
1168 Route 55, Lagrangeville, NY 12540

AI represents a remarkable leap forward in human innovation, allowing machines to mimic human intelligence and to perform tasks that were once the sole domain of our minds. From voice assistants to self-driving cars, to writing, to creating art works and to producing videos, AI has already become an integral part of our daily lives. AI is transforming industries and reshaping the way we interact with technology and deal with other people. We will be discussing some of AI's impact on our economy and society. **IT IS ESSENTIAL FOR US TO BECOME AWARE OF THE MORAL AND ETHICAL CONSIDERATIONS; THE RESHAPING OF MANY JOBS; THE SPREAD OF FAKE INFORMATION; AND THE LOSS OF PRIVACY.**

JEAN-CLAUDE FOUERE Holds an advanced degrees in Physics Engineering and Optical Systems Design and worked for twenty years as an engineer and engineering manager in astronomical; instrumentation; laser printers; optical recording; photolithography and metrology followed by twenty years in the development, marketing and sales of industrial equipment used in the manufacturing of semiconductor chips. Upon retirement, he taught International Marketing at Marist College and Photovoltaic Systems at Dutchess Community College.
